## Greeks banning alcohol

*Local chapters to join national sobriety trend*

By Jana Seshadri  
Spartan Daily Staff Writer

Phi Delta Theta, an international college fraternity with 180 chapters and 7,500 undergraduate members across the United States and Canada, has decided to begin the next millennium with a renewed sense of sobriety.

The SJSU chapter of Phi Delta Theta will implement the unanimous passage of the "Alcohol-Free Housing Initiative," which was passed in February by the fraternity's national General Council in Lexington, Ky.

The initiative calls to ban all alcoholic beverages from its chapter houses as of July 1, 2000.

"The alumni leadership in our organization is very concerned about the alcohol culture on college campuses all across North America," said Executive Vice President Robert A. Biggs of Phi Delta Theta International based in Oxford, Ohio.

The reactions among Phi Delta Theta members are mixed, according to Biggs; some want it, some don't, and the others are cautious.

"I don't really like this," said Rich Moore, a Phi Delta Theta pledge. "I should be able to come home from work or school and have a beer if I want to."

Although Moore said he can see how this substance ban can benefit students, Jamil Nazari, vice president of the SJSU Phi Delta Theta chapter, disagrees.

"I don't drink," said Nazari, who described himself as not fitting the fraternity brother stereotype. "But, I don't think this ban will really affect the quality of the undergraduates who want to become members even though there will be an initial disappointment."

A study by the center on Addiction and Substance Abuse at Columbia University found that alcohol is a factor in 40 percent of all academic problems and 28 percent of dropouts. The same study reported that 42 percent of all students have engaged in alcohol abuse and binge-drinking in a two-week

## Light rail extension discussed

*San Fernando option favorite of businesses*

By Laura Vanni  
Spartan Daily Staff Writer

Where to implement a new light rail route in the downtown area was addressed at the first public forum hosted by the Santa Clara Valley Transportation Authority on Monday night.

The VTA discussed two new inner city alternatives to the future alignment of the Vasona Light Rail Project that will run from downtown San Jose to Campbell.

The alternatives plan to run through a future Cal Train station and either continue through San Fernando, or turn onto Delmas Avenue curving onto San Carlos Street.

The meeting allowed the public to voice its concerns about the alternatives.

"We see the San Fernando alternative coming into the heart of downtown," said Pete Larko of the San Jose Redevelopment Agency.

Many business owners stated at a Downtown Association meeting that they liked the San Fernando alternative because it added more stops for people to visit the San Fernando area, said Fil Maresca, a San Jose downtown resident and business owner.

Maresca pointed out that the increased construction time would affect downtown businesses.

"(There is) a negative on San Fernando for people who own businesses. They might be out of commission for two years as their sidewalks get torn up," Maresca said.

"San Fernando is the only main drag in downtown. By using Delmas and the existing San Carlos line, it will not impact traffic," said Rebecca Smith, a San Jose downtown resident.

Condominium owners along Delmas Avenue expressed concern over the increase of traffic and noise that would come with the Delmas alternative.

"The new Vasona line will run five-and-a-half miles and add seven to nine new stations opening additional transportation into Campbell," said Doreen Moreno, public communication specialist for the VTA.

Moreno said the VTA estimates the new line will receive

### Singer serenades students on quad

By Catherine Spencer  
Spartan Daily Staff Writer

Standing below the tall palm trees lining the quad area in front of the University Dining Room, Dale Ozan attracts dozens of students who gather around him to listen to the sweet sounds of rhythm and blues on a sunny Tuesday afternoon.

On a campus that doesn't have many street entertainers, Ozan's impromptu performance is a rare treat for many who happened to catch him on the way to class or during a trip to the Student Union.

"Dale has a great voice," hospitality major Ann Morales said. "He is not someone you would normally see on other campuses."

Ozan is a street performer who began singing between Clark Library and Central Classroom Building four years ago. He said he came to San Jose State University because he got tired of playing to audiences in dark, cramped Bay Area nightclubs.

"There's a lot of money to be made in clubs, but you don't get the one-on-one contact with people," Ozan said.

Pausing to listen to Ozan sing a rendition of the 1967 song, "I Heard It Through The Grapevine," which was made famous by Marvin Gaye, passers-by seemed drawn to his voice. Numerous people approached Ozan after his performance, talking with him and asking him questions.

Ozan doesn't come to the campus regularly — only when the mood strikes him. That's when he can be found belting out popular tunes that range from Top 40 to gospel. Some of his favorite artists include Luther Vandross, Stevie Wonder and James Ingram.

Observers seem impressed by Ozan's talent, dropping coins and dollars into his wicker

## Gay, lesbian center's work honored

*Council praises community education efforts*

By Rhonda Sluder  
Spartan Daily Staff Writer

The Rainbow Works volunteers at the Billy DeFrank Lesbian and Gay Community Center received an award for their 16th anniversary of exemplary service to the South Bay community at the San Jose City Council meeting Tuesday night.

"The city of San Jose takes great pride in recognizing the Billy DeFrank Gay and

Lesbian Community Center for its significant contribution to the gay, lesbian, and bisexual community in the South Bay," Council Member Frank Fiscalini said.

Opening in 1981, the Billy DeFrank Center has overcome difficulties on the lifestyle they represent. They have remained dedicated in helping the community in a variety of projects from painting over graffiti to assisting in neighborhood watch groups against crime. In

addition, they provide support groups in which anyone is welcome to join.

"Since their founding they have done an outstanding job in really helping in educating the community in the needs, hopes, and aspirations of the gay and lesbian community," Fiscalini said.

About 20 Billy DeFrank members attended the ceremony to accept the award on behalf of the late African-American drag queen for whom the center was named after.

The center represents three important

values for many of its members.

First, the center represents a way of life for the gay, lesbian, and bisexual community. Second, it represents the home and heart for many of the activities of its members. Third is the way the center represents the members hope.

Jo-Lynn Otto, program director at the Billy DeFrank Center and a member of Rainbow Works, said she appreciated the acknowledgment of the contributions they have made to the community.

## Committee rallies behind Abu-Jamal

By Genoa Barrow  
Spartan Daily Staff Writer

Fourteen years, four months and seven days.

That's how long Mumia Abu-Jamal has been in prison for the 1981 murder of a Philadelphia police officer — a murder he says he didn't commit.

Every man on death row claims to be innocent, but few have worldwide support in those claims. Abu-Jamal, christened Wesley Cook, is among those few. Numerous organizations have rallied around the journalist-turned-author. The Emergency Response Committee is one such group.

The committee is sponsoring "Freedom Quest: Free Mumia Abu Jamal!" on Friday at the Santa Clara Civic Auditorium to increase awareness of the journalist's plight. Nicholas Whitehead, a founder of the Emergency Response Committee, said the group is made up of Santa Cruz citizens dedicated to preserving Abu-Jamal's life.

"Freedom Quest," which kicks off at 7 p.m., will feature readings from Abu-Jamal's books "Live from Death Row" and his latest, "Death Blossoms." Musicians and dancers will also perform. Speakers include Dolores Huerta of the United Farmer Workers, Santa Cruz City Councilwoman Celia Scott, and

# Gender equality is not achieved with Title IX

## Guest Editorial

It may have taken 25 years, but the University has 12 official women's athletic teams that make up about 40 percent of the total number of student athletes. According to the U.S. Department of Education's Civil Rights office, that means the University is squarely within the limits of a 25-year-old law.

However, collegiate athletic departments should not reflect on the anniversary of the federal law known as Title IX with satisfaction. The nationwide collegiate community has made many inroads to gender equality in women's athletics at the university level, but the journey is by no means complete.

When Title IX passed in 1972, it promised to give across the board, equal opportunities for women in higher education. At its heart, the law addressed everything from tenure reform to admissions, but its greatest impact has been on college sports. Without Title IX, most athletic directors might not have sponsored women's teams. Even today, some schools readily admit that they wouldn't have women's sports teams if they didn't have to.

Under Title IX, the U.S. Department of Education can withhold all federal dollars from institutions that do not achieve total gender equity in sports programs.

That includes entirely equal budgets for men's and women's programs: equal recruiting funds, equal player scholarships and equal average salaries for coaches. However, that degree of financial gender equality has rarely evolved. Nationally, on the average, women's sports programs receive 25 percent of athletic budgets, 27 percent of recruiting dollars and 38 percent of financial aid, even though in NCAA Division I schools, women make up 52 percent of the student population.

Due to observable stagnancy, universities seem to be content with those numbers. The federal government cannot allow college athletics to lag in terms of gender equality.

No one can expect women's programs to have the economic strength and popular support of men's programs overnight, but a quarter of a century was not an unreasonable amount of time in which to make a showing. Individual women athletes who have sued college universities under Title IX for cases of inequality have consistently won and received monetary compensation.

While the threat of litigation has scared some programs into increasing support for

women's sports, many lag behind, dragged back by the outdated dogma that women belong on the sidelines and not on the field.

The U.S. Department of Education should take an opportunity on Title IX's silver anniversary to reconsider the law and how it relates to college sports. There seems to be just as many deserving female athletes who might not be able to attend college without a scholarship as there were 25 years ago. They deserve their share.

## Financial assistance does not benefit, help Third World countries

There can be no argument that the people in Third World countries are poor and scraping out a meager existence just to stay alive. Unfortunately, no matter how much money we give to the less-developed countries, nothing seems to help them better their situation.

Since 1960 we have loaned approximately \$1.4 trillion dollars. Obviously, that money hasn't helped them much since poverty is still prevalent.

So what did it achieve? Did it stimulate growth in their countries? Or perhaps it fell into the hands of corrupt politicians who run them?

Appointed by the Clinton Administration, Brian Atwood, who runs America's Agency for International Development, was faced with a sharp budget cut. He was forced to choose just four goals to focus on.

However, instead of putting relief of poverty at the top of the list, it was disregarded for more important issues such as building democracy and fostering economic development.

So what does this mean? It means that highly developed countries no longer have the luxury of donating millions of dollars to help out the Third World nations.

Even if they did, from past experience it has proven that it hasn't helped the less-developed countries spur their economy or help their people.

Aid was first seen as a transitional device to help countries reach a point where their own economies would eventually become self-sustaining.

In reality, the countries that have received the most aid and have the highest levels of capital investment, have grown very little, such as sub-Saharan Africa.

Why is it then that some Third World countries such as China and Vietnam have had their economies grow extremely fast, with virtually little aid to help them out?

The North cannot be accused of not helping the South with their high poverty rate.

There comes a point when the political system of these countries should be held accountable for their own problems. Their failure to control their populations, with the lack of stability and poor economic planning, have stunted the development of their country and their people.

The fact that representative democracy has been almost absent as a structural feature in the political history of Latin America, for example, may help explain why their advancement has been minimal.

It has been shown that countries with a democratic society have moved toward a better way of life.

In conclusion, the tendency of aid is to compensate for failure rather than to reward success. The North can't keep on dumping money into these countries without seeing the positive results it is intended to supply. It's not doing our economy any good, nor is it helping to reduce poverty.

It seems obvious that if we donate another \$1.4 trillion dollars, history will just repeat itself. Countries will be out of money, the plight of impoverished citizens will not be improved and the politicians of their countries will just get richer.

## A view of Mumia Abu-Jamal's case

"My name is Mumia Abu-Jamal. I'm a journalist, a husband, a father, a grandfather and an African American. I live in the fastest-growing public housing tract in America. In 1981, I was a reporter for WUHY and president of the Philadelphia Association of Black Journalists. Currently, I'm a writer and a public radio commentator. I've been a resident on Pennsylvania's death row for 11 years. Tune in to hear my regular reports — from death row, this is Mumia Abu-Jamal on your public radio station."

A lot of people have never heard Mumia Abu-Jamal say these words. This is how the death row inmate begins his public radio commentaries. The journalist has been on death row since 1982, after being convicted of killing police officer Daniel Faulkner on Dec. 9, 1981. However, Abu-Jamal's life, and the trial surrounding his conviction, has remained in relative obscurity.

The Emergency Response Committee is sponsoring "Freedom Quest: Free Mumia Abu-Jamal" on Friday at the Santa Clara Civic Auditorium to increase awareness of his plight. Abu-Jamal's case will also be discussed as part of the Social Environment Justice conference at SJSU on Saturday.

For those who don't know who Abu-Jamal is, or the story involving his arrest, here are the facts:

- Faulkner was found shot in the back and face after pulling over William Cook, Abu-Jamal's brother.

- Abu-Jamal was found shot in the chest at the scene with his licensed .38 caliber pistol nearby.

That is all that is known. What happened that night is unknown. Before jumping to conclusions, however, people should look at the larger picture that includes questionable evidence and witness testimony.

First of all, Abu-Jamal, who had never had a previous arrest, had the gun with him because he moonlighted as a part-time cab driver, and one Philadelphia nighttime cab driver who didn't carry a pistol with him put his life at risk.

Of the two witnesses who positively identified Abu-Jamal as the gunman, one was a prostitute with serial charges pending against her and has since said police

coerced her into identifying Abu-Jamal or else face time in prison. The other was a cab driver on probation for a felony arson conviction. There is also another witness who filled out a police report after the shooting. She said she saw someone fleeing the scene the night of the shooting, but neither the prosecution nor the defense was able to find the witness.

Abu-Jamal's .38 caliber was found at the scene, but the bullet that was removed from Faulkner, according to the medical examiner Marvin Aronson, was a .44 caliber shot. However that information was never introduced into the trial.

Abu-Jamal's gun was never examined to see if it had been fired, nor had his hand to see if there was any lead residue.

Because he could not afford a lawyer, Abu-Jamal chose to represent himself. The presiding judge, Albert Sabo (who, according to the NAACP Legal Defense and Education Fund, has handled down more than twice as many death sentences as any judge in the country), complained that Abu-Jamal was taking too long interviewing the juror and replaced him with a court-appointed attorney. Abu-Jamal objected and was eventually put out of the courtroom, which kept him from large portions of the trial.

The case is a perfect example of why people of color and poor people in this country feel negatively toward America's judicial system. Here is a man who was a journalist and had never been in trouble with the law. A man who was driving down the street and saw his brother getting brutally beaten by a police officer. Given the historical relationship between police officers and inner-city communities, it is understandable why Abu-Jamal rushed to his brother's aid.

But despite the evidence pointing toward Abu-Jamal's innocence, this brother remains on death row without getting the opportunity for another trial. He has been an inmate for 14 years of his life — far away from his family, friends and profession, and like many others is a modern-day political prisoner.

## When average people do remarkable things

Society often judges people on their achievements: what they have or haven't done. When a person applies for a job, a prospective employer evaluates the applicant on his or her previous work, memberships in organizations, conviction records or outstanding awards. However, the employer doesn't usually look at what obstacles the applicant had to surmount to get to where he or she is that day.

Measuring men and women on their successes and failures does not accurately determine the quality or competence of a person. Instead, people should be assessed based on what they have survived or endured. Overcoming adversity builds character and molds individuals into who they become.

There are thousands, even millions of cases when ordinary people do extraordinary things or where someone must prevail over extreme circumstances. These people are rarely acknowledged, and if they are, it is for a brief moment on the nightly news, which is shortly forgotten. By just examining the people around you, a person can probably find at least one of these unsung heroes.

Take for example the boy whose father suddenly goes into a violent seizure and falls to the ground. Rather than panicking or crying hysterically, the child dials 911. With the assistance of a dispatcher, the boy is able to report the emergency and direct rescuers to his home. Because he acts quickly, the boy's dad gets the medical attention that saves his life.

Consider the single mother of two children who receives welfare and must pull herself up by the boot straps. This woman is looked on by the public as a lazy person who would rather spend the free money she receives from taxpayers than get a real job. But this mother keeps going despite the negative stereotypes. She is determined to make a better life for herself and her family. This woman goes to college, gets a degree and becomes a successful accountant — all while single-handedly raising her two children.

Or what about the man who escapes from a building engulfed in flames only to rush back in when he discovers the life of a young infant is in jeopardy? The man reacts instinctively and manages to emerge with the frightened child unscathed. He rescued a life without a second thought.

Then there is the mother who has a sick daughter suffering from a rare kidney ailment. This woman spends day and night sitting by her child's side, lending moral support and keeping up the little girl's spirits even though this mother is dying on the inside. Deep down she is afraid her daughter will never recover or, thinking the unthinkable, maybe her child might die. This woman uses every ounce of energy to keep it together and not let her daughter see her cry. Many years pass and numerous hospital visits later, a miracle occurs. Her daughter recovers.

These are just a few of the situations where average people do remarkable things. The feats won't show up on an application or a resume, but they are there if you dig beyond the surface. Sadly, many do not.

Societal institutions should give these individuals credit by presenting them with awards for valor or perseverance. If these people were recognized, maybe they would be valued as much as athletes and movie stars who receive millions of dollars for their contributions.

## SJSU: a place to end discrimination

### Letter to the Editor

On March 17, 1997, when the Air Force Reserve Officers Training Corps was re-established at San Jose State University, the lives of all people on our campus — whether gay or straight, student or staff, old or young — were affected negatively.

Given the treachery and homophobic double-speak of measures such as "Don't ask, don't tell," it is hardly surprising that the Department of Defense and Rep. Solomon behave like school-yard bullies, threatening financial aid and research funds, brewing a Faustian dilemma between principles and educational survival for our working-class students.

But we are appalled and insulted by the inaction of the chancellor and trustees who have neither stood by the anti-discrimination policy of SJSU, nor spoken out against this heinous federal extortion.

We will not forget this cow-

ardice and complicity, especially coming from the same trustees and chancellor who have not yet accorded any form of domestic partner benefits, despite the fact that many major Silicon Valley firms, and even Mickey Mouse, have established this minimal gesture toward equality.

If the anti-discrimination clause of the university can be repeatedly compromised against lesbian and gay people, who is next?

The Gay and Lesbian Faculty and Staff Association is adamant that absolutely no students on this campus should be subject to prejudice or punitive threats. As an organization, we will continue to fight for equal justice for all.

To do that means that the focus of attention cannot shift from SJSU, either locally or nationally.

We question how President

Robert Caret and the administration will move beyond the rhetoric of this moment to address, directly and forthrightly, in a highly visible public manner, the homophobia which exists on this campus and beyond.

For instance, we assume that the president is prepared to continue his challenge, on all fronts, to the unethical behavior of ROTC.

To further this, GAFSA thanks the Academic Senate for their staunch support of non-discrimination and seconds the Senate's suggestion to bring Rep. Solomon to campus.

Let SJSU be the location from which the tide will turn against what President Caret called "one of the last overt, sanctioned vestiges of prejudice and pure discrimination in America."

# Student to receive diploma posthumously

By Laura Vanni  
Spartan Daily Staff Writer

Kimberly Wirth will graduate from San Jose State University with a master's degree in business administration, despite recently passing away in a car accident.

Wirth, who graduated in 1993 with a bachelor's degree in psychology with an emphasis on clinical counseling, returned to SJSU to work part-time on her MBA. She would have completed her degree this spring.

William Nance, director of administration of the business graduate program, stated in a letter to her family that Wirth would receive her degree posthumously. Nance said he recognized the amount of dedication Wirth put forth in achieving her MBA and the importance she placed on accomplishing her academic goals.

On the afternoon of Feb. 9, Wirth was driving south on Highway 101 in Redwood City, when two racing cars cut her off, causing her to spin out of

control and hit the center divider.

Soon after, another automobile traveling at what was estimated to be more than 100 miles per hour, struck her car cutting it in half and throwing her from it.

She was pronounced dead at Stanford University Hospital. With a .12 alcohol level, the driver of the car who hit Wirth was charged with not only driving under the influence, but also causing injury and vehicular manslaughter. The legal blood alcohol content is .08 in California. The Redwood City California Highway Patrol officials said they are still looking for the drivers of the other automobiles, possibly a Nissan 300 ZX and a Mazda RX-7.

"Kim was definitely involved in the community," said Wirth's sister, Tracy Gaylor. "She volunteered, helping out the elderly and watched chil-

dren at a Sunday School nursery."

In June of 1992, Wirth was crowned Miss Santa Clara, a competition she entered because of its scholastic scholarship and because it, according to Wirth in a 1992 Spartan Daily article, "focused more on academic talent ... than beauty."

WIRTH

Wirth began dancing at the age of three and used her talent to win many competitions in tap and jazz. She was grand champion at the California State Championships many times throughout high school and college.

Wirth was also active in the SJSU community. In 1992, Wirth performed with the San Jose State Dance Troop, which included dancing at the Silicon Valley Ball.

Wirth was an active member of SJSU's Campus Crusades for Christ and was a reader for a blind student as

an undergraduate.

After graduating, Wirth went on to become an engineer at Litton PRC, at Onizuka Air Force Base in Sunnyvale. According to Gaylor, Wirth planned to use her MBA to delve into the marketing side of engineering at the company.

More than 700 people attended a memorial service for Wirth held on Valentine's Day.

"The family chose to have the memorial service on Valentine's Day because Kim had touched so many hearts throughout her life," Gaylor said.

"She was a joy to be around," said Vincent Stephens, an SJSU graduate student who met Wirth in class. "I will treasure the brief friendship we shared. Kim is a very special person and I feel fortunate to have known her."

Gaylor pointed out that Wirth was careful about keeping up with all her relationships. People from as far as the East Coast and Southern

California came to her funeral to pay their respect.

"The family is receiving letters and cards five weeks after her death," Gaylor said. "What most sums up

Kim and what we have heard from all the letters, is that people loved her smile, her spirit and her love of life."

## BEHIND EVERY ACHIEVEMENT YOU'LL FIND AN EXTRAORDINARY DRIVE

And inside every drive there are enormous possibilities. After all, we didn't get to be the biggest name in storage technology by thinking small. That's why we look for people with big ideas and high expectations for their future. Exceptional talent. New perspectives. Achievers with drive. If you're ready to make the leap from the challenges of school to those of a career, you won't find more exciting technology or more diverse possibilities anywhere. Now that's an achievement.

We are seeking interns who are ideally seniors in an undergraduate program or have advanced to a graduate program and will be eligible for hire within one year of the internship.

# Duncan expert on two fields

By Tiffany Sanchez  
Spartan Daily Staff Writer

Todd Duncan plays two sports at SJSU, in different seasons, filling very different roles. But the sophomore brings two common elements to the soccer and baseball fields — effort and dedication.

"When Todd is on the field, he's guaranteed to give you 195 percent," said SJSU's soccer coach Gary St. Claire, who led the Spartans to a 10-6-3 overall record last season. "As a coach, it's refreshing to work with someone like Todd because he's intelligent, he listens to what I want and he challenges me by making sure I'm on top of our game."

"He's the center of defense for us and he patrols that very well because he's not intimidated by anyone. When you come into his corner, you should be prepared."

As a second-year, two-sport athlete, Duncan brings experience and skill to SJSU's soccer team as well as its baseball team.

A two-year starting defenseman for the soccer team, Duncan played a key role in SJSU's surprise 1996 season. Duncan teamed with senior C.J. Brown to anchor a defense that helped the Spartans finish with a 4-2-2 record in their first season of Western Athletic Conference play.

For Duncan, who earned all-league recognition in both soccer and baseball while lettering twice in both sports at San Jose's Bellarmine Prep, being a fierce athletic competitor means dedicating yourself wholeheartedly to any sport.

"I've been playing both soccer and baseball since I was 5 years old," Duncan said. "Being an athlete is something I've enjoyed ever since I began playing Little League with my friends. It's just something I do well. With sports, it's all about concentration, about focusing on what you want to do and training yourself to accomplish those goals. For me, being a two-sport athlete means not only keeping my level of concentra-

tion up, but also improving my playing techniques throughout the year."

Besides embarking on a successful collegiate athletic career, Duncan was named to the 1996 WAC all-academic team for soccer.

"Todd is a dedicated athlete and a dedicated student," said Brown, Duncan's defensive mate. "Not only does he keep up with his grades, but he knows how to push himself both on and off the field. When he's out there on the field, he's always working hard to better his game, which is the sign of a strong athlete."

While Duncan dedicates his efforts on the soccer field to keeping goals off the board, his duties on the baseball diamond are focused on helping the Spartans produce runs.

Duncan has started 28 of 37 games as an outfielder for the 1997 Spartans, and is batting .257 with four home runs and 22 RBIs.

The 6-foot-1, 180 pound right hander has also logged five innings in four appearances as a relief pitcher.

"Todd is one of the outstanding student-athletes of this entire institution," said SJSU's baseball coach Sam Piraro. "He's an excellent student with well above a 3.6 GPA, as well as being an incredible athlete who is extremely hardworking."

"He's what you would call a solid citizen in every sense of the word. He has a very bright future as an athlete and we are honored to have Todd in our program."

After graduating from SJSU with a degree in civil engineering, Duncan hopes to have a career in baseball.

"I would like to become a professional athlete," Duncan said. "Probably a baseball player, they make the most money, but that's not a big deal to me, I'll go and play wherever they'll take me because I just really enjoy being a part of the sport."

Sophomore Todd Duncan plays soccer and baseball while pursuing a degree in civil engineering. He has been playing both sports since he was 5 years old, and hopes to eventually be drafted into major league baseball. He may even be chosen by his favorite team, the Dodgers.

## Spring football begins today

By Mike Traphagen  
Spartan Daily Staff Writer

The Spartan football team will have its first official practice under new head coach Dave Baldwin today during the team's spring practices of the 1997 season.

The players will not practice in full pads, but they will have a full plate of new plays and formations to learn in the coming weeks.

"We're just going to use this time to implement some of the new terminology in the offense," Baldwin said. "It's going to be a limited practice with the guys only wearing helmets — no pads. And we'll only be going seven-on-seven instead of a full 11-on-11 practice.... I think you'll see players with positive attitudes once we get out there and show them the offense."

The new SJSU offense will feature four wide receivers and one running back, which is a change from former coach John Ralston's offense that had two running backs, two wide receivers and a tight end.

The Spartans start practicing without last year's starting center Harry Daniels and defensive lineman Shon Kendall, who are hampered with injuries.

NCAA rules do not permit teams to have official meetings until today, but Baldwin said his team has spent quality time in the weight room.

"This team has produced in the weight room more than it ever has in the past," Baldwin said. "That's why I brought in a strength and conditioning coach as my ninth coach."

Practice will begin at 3 p.m.

## Pitino proves himself as the best

The Kentucky Wildcats had the 1997 NCAA Championship within their grasp Monday night, but you might say the Arizona Wildcats "Luted" the trophy away from Rick Pitino's squad like a TV

set from a riot-stricken department store.

You might, if you're in to spouting cheesy puns.

Lute Olsen coached his Arizona team to a 85-79 championship victory over the defending champs, but

throughout the tournament and in defeat, Pitino proved he is the best basketball coach at the collegiate level.

Anyone who saw him at work here in San Jose during the NCAA Tournament could tell you the same.

While Pitino paced back and forth in front of his bench, you could almost feel the ground shake from the wheels turning in his head. Actually the rumbling could have come from somewhere else — please insert your own joke about Utah coach Rick Majerus here.

Majerus joked with the media about his propensity to eat large amounts of food. Pitino joked about how well he thought his team would do this season before its first game.

"I told our equipment manager we'd be lucky to win 19 games this season," Pitino said. "(Others on the staff) were thinking we'd win 25, but after we lost our first game they wanted to lower their numbers."

He repeatedly said he was more proud of this year's team than last year's because it "played with more heart than any other team I've ever coached."

Rumors have surfaced that Pitino could leave the Wildcats for the NBA if the Boston Celtics fire their

head coach and General Manager M.L. Carr.

Why would he leave the Wildcats after eight seasons to coach in the pros, which he tried once before with the New York Knicks but reportedly didn't like?

Pitino will leave because the major beef he had with the Knicks was that he didn't have any control. With the Celtics, he would be the G.M. and coach with complete personnel control.

Pitino will leave because it's an opportunity to return to Massachusetts. With the Celtics, he would return to the state where he attended college (UMass) and landed his first head coaching job (Boston University).

Pitino will leave because of a once in a lifetime NBA draft opportunity. He will have two lottery picks and Antoine Walker, a player who left Kentucky for the pros and was drafted by Boston.

Pitino will leave and go from being the best coach at the collegiate level to the best in the NBA.

## Skiing on the warm-weather slopes of South Shore

By Ronda Sluder  
Spartan Daily Staff Writer

Although the Lake Tahoe snow is beginning to melt under the spring sun, there is still a chance to hit the slopes. Here are some South Shore resorts for your skiing and snowboarding pleasure.

**Heavenly:**  
Where else can you ski in two states just by taking a lift? Heavenly, of course. Situated on the California/Nevada border this mountain is one of the biggest ski areas in the Lake

Tahoe basin.  
With an elevation of 10,040 feet and 25 lifts, there is definitely something for everyone. The terrain varies from beginner—20 percent, intermediate—45 percent, and advanced—35 percent. If you're looking for steep, Mott Canyon has some intense chutes that will get your adrenaline pumping. And if you want to find some killer bump runs try Gunbarrel and East Face. By the time you've rounded your last mogul you'll be panting for air.  
"Heavenly has good tree skiing

that isn't too compact," SJSU junior Michael Nordin said. "Even though nothing at Heavenly is really steep, Mock Canyon can get some good powder."

Mark Templeton, a senior health care administration major, thinks Heavenly is too costly.

"It's big and expensive," said Templeton. I don't prefer to go there."

**Kirkwood:**  
If you want to appreciate the finer things in winter life, Kirkwood is the place. Black diamonds are abound

with extremely steep chutes, phenomenal mogul runs and powdery bowls. Don't worry if you haven't mastered the technique for double black diamond runs like The Wall or Thunder Saddle, because you can hang out at the Timber Creek Base Facility and take a few lessons. There are also a variety of groomed runs for intermediate skiers and boarders.

Located 35 minutes from South Lake Tahoe on Highway 88, Kirkwood is famous for deep and dry snow. Their snow base from the winters of '95 and '96 were the deepest

depths of any resort in North America.

"Kirkwood is good because they offer a discount rate for college students," said Templeton. "They have really advanced terrain."

**Sierra-at-Tahoe:**

Located a few minutes from South Lake, Sierra-at-Tahoe always seems to maintain terrific conditions on 46 slopes and trails. Take any one of the ten lifts, and gain instant access to terrain that is 25 percent easy, 50 percent intermediate, and 25 percent difficult.

They also offer four "Fun Zones" for both skiers and boarders. From Pipeline, the Gauntlet, Pyramid Park, to Snowboard Alley, you can have the chance to jump embankments, execute jump turns, or glide on the pipe. If the conditions are right, the tree skiing can be some of the best available anywhere in the area.

"Sierra is a good mountain," said Nordin. "They have the best half-pipe that I've seen anywhere. It's also an excellent mountain for beginners and intermediates. Plus their food is superb!"

CALL: (408) 741-2400

- In-Person Registration---** by appointment only (Come to Admissions and Records to pick up an appointment card beginning Tuesday, April 1, 1997 at 10:00am)
 

Continuing (Spring '97) Students	Beginning April 7
New or Former Students	Beginning April 14

 (Be sure you have an application on file to register)

HOURS: Monday-Thursday 10:00am-7:00pm

Friday 10:00am-4:00pm

Saturday 9:00am-12:00pm

- Faxed applications and registrations** can be processed for those paying fees using a credit card. The fax number is (408) 867-5033.
- Mailed applications and registrations** will be processed as they are received. Please mail all appropriate forms to the Admissions Office, West Valley College, 14000 Fruitvale Avenue, Saratoga, CA, 95070

## NEW and FORMER STUDENTS, PLEASE NOTE:

You may attend summer classes before you have completed orientation, but you MUST complete orientation BEFORE you can register for FALL classes. You may still be required to complete assessment before enrolling in a summer session of English, ESL, math or reading. See the Summer/Fall 1997 Class Schedule for more complete information about orientation and assessment.

Students with AA degrees or higher do not need to complete orientation or assessment.

## FEES

All students will be required to pay enrollment fees, basic fees, and non-resident tuition (if applicable). Other fees may include parking, material fees or fees for returned checks. **Students with B.A. or B.S. degrees no longer have to pay a differential fee!**

- Enrollment Fees** - Students pay \$13.00 for each unit in which they enroll. If a class is offered for 3 units, a student pays \$39.00.
- Basic Fees** - Basic fees include a \$2.00 Campus Center fee, a \$8.00 Health fee and a \$2.00 Tel-Reg fee (if applicable).
- Non-Resident Tuition** - Out-of-state or non-resident tuition is charged to each student whose legal residence is outside the state of California. The 1997-98 tuition fee is \$120 per semester unit. A capital outlay fee of \$5.00 per unit will also be charged to international students only.
- Parking Fee** - A summer semester parking permit may be purchased at the Admissions Office for \$15.00 beginning April 7. Lost or stolen parking permits will not be replaced by the College.
- Returned Check Fee** - A processing fee of \$15.00 will be charged for checks returned due to insufficient funds, stopped payment or closed accounts. This fee can be as high as \$50.00 depending on the response time to clear the check. Additionally, a "Delinquency" will be placed on the student's records which will interrupt registration and issuance of transcripts. The passing of Account Closed checks may be considered a criminal offense and may be referred to the District Attorney for prosecution.

## Fee Waivers

Enrollment and health fees will be waived for students who are eligible for the Board of Governors Waiver (BOGW). BOGW applications are available at the Financial Aid Office (in the Admissions and Records Building).

## Fee Refunds

Enrollment and basic fees will be refunded to students who drop their classes before the drop deadlines listed under each class listing on the student's registration receipt.

Non-resident fees will be refunded to students who drop or reduce their classes as follows:

Full refund: before or during the first three days of instruction.

Two-thirds refund: during the fourth, fifth and sixth day of instruction.

One-third refund: during the seventh, eighth, and ninth day of instruction.

Parking fees will be refunded at the Cashier's window (in the Admissions and Records Building).

## IMPORTANT INFORMATION ABOUT CLASSES

### ADDING CLASSES AFTER INSTRUCTION BEGINS

Effective the first day of class, you must attend a class in order to register. If the instructor can accept any additional students, s/he will sign an ADD slip. Take the add slip to the Admissions Office within 24 hours. There, the add slip can be processed and you can pay your fees.

The add slip must be presented in the Admissions Office prior to the deadline published. In addition to a signed add slip from the instructor, you must meet all pre- and corequisite requirements. If it is determined that you have enrolled in a course for which you have not met the prerequisite or successfully challenged the prerequisite, you can be dropped. Your fees will be automatically refunded.

### DROPS/ CLASS WITHDRAWALS

See Summer Session calendar and your registration receipt for deadlines.

A letter grade other than a "W" will be assigned for students who drop classes or withdraw from the College after the deadline to drop.

It is the student's responsibility to drop a class officially to avoid a penalty grade. Drop slips are available in the Admissions Office.

### FINAL EXAMINATIONS

Final examinations will be given during the last regularly scheduled class meeting.

### COURSE STANDARDS

All summer courses are governed by the same regulations and standards applicable during the regular school year, with the exception that students on Academic Probation or Disqualified Status may attend the Summer Session. Consult the current College Catalog for further academic regulations on course content and prerequisites.

### PREREQUISITES, COREQUISITES AND RECOMMENDED PREPARATIONS

Prerequisites and corequisites are **MANDATORY**. You must have satisfied prerequisite requirements **BEFORE** you attempt to register. See the Summer/Fall 1997 Class Schedule for more information. Pre- and corequisites may be challenged under certain conditions. See the Summer/Fall 1997 Class Schedule.

Recommended preparations are **ADVISORY** only.

### CREDIT-NO CREDIT COURSES

In accordance with the California Administrative Code, Section 51302, Title V, West Valley College has established a grading policy which adds credit/no credit to the standard letter grades A, B, C, D, and F used in colleges and universities.

The selected course offerings listed for credit/no credit grades provide the student with educational opportunity to pursue studies not in the usual major field and to encourage innovation and experimentation in curriculum and general education.

### STUDENT INFORMATION SYSTEM AND STUDENT PRIVACY RIGHTS

A copy of the College Policy, Section 438 (PL 93-380) and other pertinent information are available for review and inspection in the Records Office, Admissions and Records Building.

### ACCREDITATION

West Valley College is fully accredited by the Western Association of Schools and Colleges. The College is also approved for veterans training under both state and federal laws.

## VETERANS

New veterans should contact the Veterans Office at least one and one-half months prior to the first day of school in order to request advance pay. An early date will avoid delay in receipt of the first payment. It is necessary to bring a copy of your DD214 or 2384 (Certificate of Eligibility) and any documentation relating to spouse and/or dependents. Returning Vets should allow the same amount of time for their requests. Continuing veterans should check with the Veterans Office as soon as they register for Summer Session to avoid a check delay from Spring to Summer.

## STUDENT FINANCIAL ASSISTANCE

Students are encouraged to stop by the Financial Aid Office located in the Admissions and Records Building or call (408) 741-2024 to obtain information and necessary application forms to receive Student Financial Assistance.

Financial Aid Applications are accepted throughout the '97/'98 school year (i.e., Fall '97 and Spring '98) with a final filing deadline of June 30, 1998. Students are encouraged to apply as soon as possible. Some awards are subject to availability of funds.
